

LONDON GREEN BELT MAP – for sale at £6.25

The London Green Belt Council is offering for sale a comprehensive map of the Metropolitan Green Belt. It shows the Green Belt against the background of built-up areas, motorways and main roads, elevated land such as the Chilterns and the North Downs, designated Areas of Outstanding Natural Beauty, and features of local interest.

The map is at a scale of 1:175,000 and measures 70 cm x 100 cm.

The map also indicates the boundaries of district councils and the Greater London Authority together with parliamentary constituencies. It is published with the consent and co-operation of the government's Department for Communities and Local Government, the Ordnance Survey and the A-Z Geographic Map Co. The map uses the most up-to-date information available.

Improving the quality of life in these southeast England communities, while still protecting surrounding countryside from haphazard development, have been central aims of town and country planning for seventy years. These aims are supported by every local authority with responsibility for determining the location of new development. Whilst the protected Green Belt features prominently in individual statutory plans, no composite printed map has previously existed for London's Green Belt as a whole. The map is an essential reference for all involved in the protection and promotion of London's Green Belt.
